**Project:****Acounter Counter****Interview Form**

Person Interviewed:	Interviewer:	Date:	Version ID:
Cord	Aiden	11/12/21	0.2

**Purpose of Interview:**

To gauge the demand of our app and what features are desired and sought after.

**Summary of Interview:**

Daily todo lists are useful and used, they help busy and forgetful individuals. It can help plan one's day too. Apps with clean Ui are appealing. Apps that don't work as advertised are annoying and deleted. Customization of apps is desired but if it already looks nice it isn't a necessity. A personality to an app is enjoyed.

**Open Items:**

Consider giving a personal twist to the pp to make it more friendly. Focus on clean Ui and above all functionality.

**Additional Notes:**

Should very much consider a fully fledged todo list addition.
